His Divine Presence,*

v. 7 October 2022

This list provides place and year information for each of the photographs of Avatar Adi Da, as well as detailed source information for the quotations from His Word, as presented in the perpetual daily calendar celebrating His Divine Presence Avatar Adi Da Samraj: *There Is Only The Perpetual “Brightness”*. This downloadable pdf will be updated as needed for clarifications or refinements.

**A few notes about the citations on this list:**

- All books cited are published by the Dawn Horse Press, Middletown, California.
- With one exception (on October 23), books that were authored by devotees of Avatar Adi Da are not cited as sources of His Word on the calendar itself. However, the specifics of published sources for the quotations, including from books authored by devotees of Avatar Adi Da, are included on this list.
- A number of key scriptural essays are cited on the calendar by essay title rather than book title, as they are included in multiple “Source-Texts”: “The Teaching Manual of Perfect Summaries”, “Hridaya Rosary”, and “The Lion Sutra” are cited from *The Aletheon*; “Ruchira Avatara Gita” and “Da Love-Ananda Gita” are cited from volumes of *Listen To My Testament of Divine Secrets*; and “Eleutherios” is cited from *The Gnosticon*.
- Quotations cited from *The Dawn Horse Testament* on the calendar are cited on this list from volumes of *Listen To My Testament of Divine Secrets*, from other “Source-Texts” in which they have been published in final form, or from either the 2004 edition or the forthcoming edition of *The Dawn Horse Testament*.

- Publication year or other edition information has been cited in the below listing only for texts that have been published in multiple editions.
- In some cases where it is relevant to the day on which the quotation was placed in the calendar, listings indicate when a specific quotation was either Written or Spoken by Avatar Adi Da Samraj.
- On the calendar itself ellipses and other minor alterations to the quotations are only indicated inside the quotations. In other words, changes to capitalization for the opening word of the quotation are not noted, and ellipses are not used at the opening or closing of a quotation, even if the sentence in question had more words than included in the calendar. Note also that ellipses were not used in quotations from historical Talks cited with a date (rather than cited from a specific publication).
- Note that Avatar Adi Da uses various unique conventions of capitalization and other language elements in His “Source-Texts”. Since the quotations in the calendar are from many different “Source-Texts”, conventions vary throughout the quotations.
